## Work Experience

### System Administrator, SpinDance

August 2014–present

**Automating**—Instructing computers on how to perform repetitive tasks using common scripting languages and popular automation tools for testing, code deployments, and server provisioning.

**Monitoring**—Quickly recognizing system abnormalities and addressing errors before our customers notice any issues. Also designing and maintaining a set of dashboards to watch server metrics.

### Setup Crew, Prince Conference Center

October 2007–September 2013

**Customer Service**—Learned to anticipate client demands in order to provide them with an ideal working experience.

**Independence**—Frequently worked with little or no supervision and was complimented on my thoroughness and work ethic.

## Education & Certification

### Amazon Web Services

**Certified Solutions Architect**—Associate

June 2017

**Certified SysOps Administrator**—Associate

July 2017

### Calvin College, Grand Rapids MI

**Bachelor of Arts**—Mathematics & Philosophy

May 2011

Excelled in courses on programming languages, linear algebra, computational logic, and symbolic logic

## Additional Skills

**Saxophone**—Alto & Tenor, 10+ years experience

**Woodworking**—<1 year experience
