MICHAEL MOSHER

mmosher47@gmail.com

Achievements

- Prepared materials for **coaching clients to DevOps success**
- **Developed a Slack bot** to stimulate a "ChatOps" culture
- Created monitoring dashboards to **visualize service level indicators**
- **Implemented a solution to synchronize time tracking** across multiple platforms

Work Experience

Software Engineer, SpinDance, Inc.   June 2018–present

Versatility—Integrating throughout the development lifecycle, including project planning and application support. Actively engaging in numerous active projects across mobile and cloud domains.

System Administrator, SpinDance, Inc.   August 2014–May 2018

Leadership—Provided DevOps mentoring to teammates and associates. Evaluated automation tools and established best practices for using them.

Efficiency—Managed dozens of services on 100+ servers using Chef. Configured continuous integration for 50+ repositories using Jenkins and TravisCI. Drove Terraform adoption to automate provisioning, as well.

Setup Crew, Prince Conference Center   October 2007–September 2013

Empathy—Learned to anticipate client demands in order to provide them with an ideal working experience.

Independence—Frequently worked with little or no supervision and was complimented on my thoroughness and work ethic.
